

CSC 161 Code Review Sheet

☹️ Coder page ☹️

Coder name: _____	Assignment: _____
-------------------	-------------------

Coding Guidelines Checklist

*Is your code beautiful? Circle or check each guideline that **is followed** in your code*

Javadoc comments for each class and method	Good, meaningful variable and method names	Camel notation for names (setMaxLevel)
Inline comments for complex sections of code	Consistent spacing and indentation	lower case for variable and method names (index)
Public class member methods	Consistent curly braces	Capitalize class names (PetStore)
Private or protected class member variables	Try to limit lines to 80 chars (so printing is OK)	UPPER CASE constant names (MAX_TEMP)

Coder Comments: *Note any known problems, highlight any triumphs*

Reviewer name: _____

Coding Guidelines Checklist

*Circle or check each guideline that **is followed** in the review code*

Javadoc comments for each class and method	Good, meaningful variable and method names	Camel notation for names (setMaxLevel)
Inline comments for complex sections of code	Consistent spacing and indentation	lower case for variable and method names (index)
Public class member methods	Consistent curly braces	Capitalize class names (PetStore)
Private or protected class member variables	Try to limit lines to 80 chars (so printing is OK)	UPPER CASE constant names (MAX_TEMP)

Reviewer Comments: *Highlight the positives and (constructive) negatives about this code*
